

What VBA members say

Over eight years, VBA clients have generated more than \$52M in additional revenue, with average client growth of around \$292K in 18 months. Across 178 or more video businesses, the average member stays around 27 months, and many are in their fifth and sixth year. Below is what some of them say, in their own words.

How should you read VBA's results?

VBA's figures are averages across 178 or more businesses over eight years, not a promise to any one owner. Real deployment, real systems and the growth that follows take 9 to 18 months, and in that window members have doubled revenue and lifted profitability noticeably. How the coaching runs, and what it costs, is on [What VBA offers](#).

Quotes are members' own words, wording confirmed 27 July 2026.

The field guides show you how the system works. The Boardroom is where I look at your business with you, give you perspective and judgement on what to do next, and hold you to it every week.
